

DOOM

on a BUSINESS CARD

85.8mm

54mm

"can it run doom?!"
HELL YEAHH!

IT RUNS
DOOM

a business card
thats lowkey cool!

SOLAR
POWERED!

YOU CAN
PLAY DOOM
ON IT!

INSTEAD OF BEGGING FOR
CONNECTS , JUST BRIBE
THEM WITH VIDEO GAMES

YOUR
WASD
KEYS!

CHECK IT OUT!

THE BACKSIDE
(FEATURING THE
BUSINESS
CARD)

Hobbyist-Researcher

It's the cool stuff casually with electronics
research taking up the majority of my time

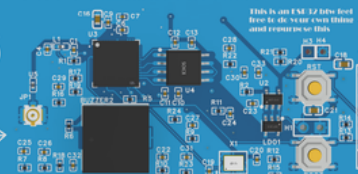

My linkedin

The heart
running your
sleek smooth ZAPS

On a side note to the you can turn this around and have fun with
F4 (FPS) as this card cleared the sacred "WHILE I am F4 C42"
rite in just one and a half minutes for this is actually the manifest

The solar panel can run it for about "5" minutes and needs you to
flip it over for "5" minutes to charge the battery

This is an FM 32 bits foot
how to do that with this
and remove so this
